Earth's First Food to the Rescue!

Upper Klamath Lake, Oregon, where E3Live™ is harvested

Our Vanishing Oxygen Supply...

There are nearly 150 oxygen-starved “dead zones” in the world’s oceans and seas, as a shocking new report by the United Nations Environment Program (UNEP) proves. Dead zones are areas where the oxygen supply has reached a dangerously low level—a level that’s deadly to even the smallest fish or bacteria.

You’ll be furious when you find out what is causing these dangerous new dead zones! It’s not something just happening on its own—not at all! It is caused by *an excess of chemicals spewing out of agricultural fertilizers, vehicles and factory emissions and wastes!* They create painfully low levels of oxygen in the water, which literally suffocate fish, oysters and other marine creatures desperately trying to survive. They also strangle beautiful natural habitats like sea-grass beds.

But it’s not just the animals or plants that suffer! In all likelihood, you are breathing in less oxygen today than your parents did growing up—and lower still than your grandparents did, and so on...

With the number and size of oxygen-starved areas exploding (the total number detected has

jumped up every decade since the 1970s,) isn’t it time to start taking this health risk seriously?

Ralph Nader’s group of researchers recently estimated that we now live in a world where 80,000 chemicals are sent into the atmosphere *every single day*. This not only slowly-but-surely steals your essential oxygen supply; it robs you of **your most precious asset—your health.**

In the early 1900s, before our exposure to chlorine, pesticides, herbicides and thousands of other chemicals, the average American had a 1-in-50 chance of getting cancer. **Today, 1 in 3 can expect to get cancer in their lifetime. For males, it will be 1 out of every 2.**

So what’s the solution? How can you hope for peak health and performance in a chemically over-polluted, under-nourished world? How can you replace the lost nutrients and oxygen your body is starving for?

Amazing Discovery from a Pristine Ancient Lake

The astonishing answer can be found in an almost magical body of water in Oregon, called Upper Klamath Lake. This lake has an exceptionally high mineral concentration created by the volcanic eruption of Mount Mazama that occurred over 7,000 years

ago, creating this amazing ecosystem and one of the wonders of the Western world—Crater Lake, which feeds into Upper Klamath Lake. This eruption covered the area with millions of tons of mineral ash. Seventeen streams and rivers deposit mineral-rich volcanic soil from the surrounding 4,000-square-mile basin, making Upper Klamath Lake one of the richest nutrient traps in the world.

It is also one of the few remaining alkaline lakes on the planet. At 4,100 feet elevation, it is surrounded by national forest and timberland, and it is remarkably pure and pristine—*especially* for this day and age.

This pristine lake, literally overflowing with volcanic minerals, harbors one of the world’s most amazing nutritional discoveries. About 20 years ago, special fresh-water nutritional plants, referred to as *cyanophyta*, were discovered growing in Upper Klamath Lake. (The area’s indigenous peoples have been eating this food for thousands of years.) The powerful form of *cyanophyta* they found is called *Aphanizomenon flos-aquae* (AFA), which literally means “invisible living flower of the water.”

Why does this matter to you?

Continued on next page

Well, for starters, it turns out that *cyanophyta* are collectively responsible for 90% of the earth's oxygen and 80% of its food supply! And

while there are tens of thousands of species of these amazing unicellular plants—not all are edible. Of the edible ones, AFA is in a class by itself. That's the thrilling part about the discovery in Klamath Lake. AFA is now described by natural-health experts as the single most nutritionally complete, health-transforming food on the planet!

How to Get Much More than Your Oxygen Back

Before you go running to the nearest health food store to look for AFA—*be careful!* Not all AFA is created equally. Much of it is not harvested or handled in a high-quality manner. PLUS, most forms of AFA are heavily processed, destroying the vitality and benefit of the original plant.

There is only one company that harvests AFA strictly from the purest upper region of Lake Klamath and then *exclusively* bottles it fresh. Once it is tested for purity and potency, the pure liquid AFA is then fresh-frozen so there's virtually no degradation or nutrient loss. The company is called Vision, started by a health-conscious Oregon couple in 1995, and they harvest E3Live™—100% live, fresh-frozen AFA.

Aphanizomenon flos-aquae (AFA) "invisible living flower of the water" (magnified)

Since it began, Vision has been the ONLY producer in the world of this pure, fresh-frozen aquatic super-food. This unparalleled form of AFA has rapidly become the health food of choice of many top doctors, world-class athletes, celebrities and ultimately *anyone* looking to combat the chemical assault of today's world. People that want to look and feel younger swear by E3Live.

Gabriel Cousens, M.D., is one of the world's foremost holistic medical doctors and the author of *Depression-Free for Life*, *Conscious Eating*, and other books.

He's the founder of Tree of Life Rejuvenation Center in Arizona. He says:

As a physician working with thousands of clients, I find that E3Live helps to restore overall biochemical balance by nourishing the body at the cellular level. Our positive response from the use of E3Live has been extraordinary. It's a wonderful and unique source for peak performance of body, mind, and spirit that should be included in any detoxification and rejuvenation program. I take it myself daily.

How the Miracle of E3Live Works

So how does E3Live help to instantly replenish your oxygen, nutrition and vitality levels? For starters, E3Live contains more chlorophyll than any other food

in existence—a whopping 160% higher than the next highest food, spirulina, and 3-to-5-times more than wheatgrass!

The amazing fact is that chlorophyll's molecular structure is almost identical to that of hemoglobin, which is responsible for carrying oxygenated blood throughout the body. *So chlorophyll molecules are easily converted into oxygen.* This means that AFA's chlorophyll is the central molecule for increasing oxygen availability to your system! Simply put, **there's no food on the planet that can supercharge your body with oxygen faster or more effectively than E3Live!**

Not only that, chlorophyll

detoxifies the body from both internally generated wastes and the external poisons you're bombarded with on a daily basis. And remember—*that's only the beginning!* Years of research by Christian Drapeau, M.A. in Neurology and Neurosurgery,

Dr. Gabriel Cousens

have revealed that AFA contains much more:

- ☞ Scientists are calling Phenylethylamine (PEA) the "molecule of love" because it creates the sense of joy and fulfillment one experiences when in love. PEA is believed to enhance concentration and attention, and to quickly elevate your mood.
- ☞ There have been many scandals about man-made COX-2 drugs and their deadly side effects!

But Phycocyanin, which is the blue pigment in AFA, is a *safe and natural* COX-2 inhibitor with strong anti-inflammatory properties.

☞ With all of the pollution you face—your immune system needs protection like never before. AFA contains the only known ultra-rare polysaccharide that **stimulates the migration of immune cells in the body.**

☞ The most thrilling news of all is that AFA can actually help you regenerate brand-new healthy cells, completely revitalizing your body! This works because AFA has a unique compound that stimulates stem cell release and migration of your own bone marrow stem cells!

☞ E3Live is the highest source of plant protein available and contains all of the amino acids in perfect balance that your body requires. Amino acids are the building blocks of protein. By using E3Live, you are supplying yourself with the best form of plant protein available.

☞ It contains over 60 minerals and trace minerals, in a *powerfully chelated form*, so your body can INSTANTLY absorb them into your cells. With the exception of D and K, ALL vitamins are present in E3Live, giving you the perfect nutrient fuel for your cells. And despite what cereal companies tell you, you don't need to eat Vitamin D and K. They're produced naturally by your body under normal conditions.

☞ E3Live also contains the

much-needed Essential Fatty Acids Omega-3 and Omega-6. And it is one of the highest known natural food sources for beta carotene, a cell regenerator and potent antioxidant—neutralizer of premature aging and damaging free radicals!

What Do Others Say?

Hundreds of thousands of people worldwide have now enjoyed the amazing, life-changing benefits of E3Live.

Here are a few of the many testimonials we've received:

Within 3 days of taking E3Live, I felt better mentally and I did not have the bad cravings for junk food like before.

In 2 weeks, I lost 13 lbs. I lost another 27 lbs. in the next two months due to my reduced cravings and more energy.

—Debra Belton-Harkley

Since I began eating E3Live, I've noticed an unmistakable boost in my energy. I have more stamina and can swim faster for longer periods. My racing times have improved. I can now work out more intensely. Recovery time is dramatically shorter. Bottom line is: E3Live makes a big difference in my performance!"

—Ryk Neethling, Olympic Swimmer and World Record Holder

I suggest every person who wants to maintain a healthy physical and mental state use E3Live on a daily basis. E3Live is a live food. You will easily digest and assimilate all the nutrients. E3Live is good for children, teenagers and adults of any age.

—Dr. Theresa Dale, Ph.D., N.D.

I haven't had leg pains since the very first day of taking it and I've had these pains for over 6 months without a break! It was keeping me from sleeping and

making me grouchy. I've slept soundly and had ZERO leg pains!

—Raynee Steele

I am the CEO of a company and the stakes are high. If a

telecom company goes off-line, it costs many thousands of dollars each minute!

Since I began drinking E3Live, my engineers and colleagues have told me I'm more poised, focused and on-task. My threshold for handling stress has increased and my concentration is sharper. Solution-oriented resolutions to daily challenges come easier. Am I jazzed about E3Live? You better believe it!

—Bob Berry, President, DPS Telecom, One of Inc. Magazine's Top 500 Fastest Growing Companies

E3Live™

Why Is Now the Best Time Ever to Try E3Live?

This is probably the first time you've heard of E3Live's incredible story and you may still be a little skeptical. With that in mind, Vision has created what we believe is the most powerful guarantee in the natural-health industry. It says:

IF YOU DO NOT "FEEL THE DIFFERENCE"—BY YOUR OWN EVALUATION—WE WILL REFUND YOUR PURCHASE PRICE (NOT

INCLUDING SHIPPING) **FOR UP TO ONE YEAR.** (That goes for ALL of our products except Tamera's Truffles, which are only guaranteed to be delectable!)

So there's literally no risk to you! What's more, in conjunction with this magazine, the nice folks at E3Live will "sweeten the pot" by giving you **20% OFF your first order** of E3Live.

Still not convinced? Then call *Natural Life News & Directory* to receive a CD with ground-breaking interviews by two of the country's top holistic doctors, along with an informative booklet and free samples of

Vision's E3-AFA™ (dried AFA in vegetable capsules).

With the increasing depletion of your daily oxygen, a nutrient-poor food supply, and skyrocketing death rates from preventable degenerative diseases, there's never been a more opportune time for you to try—risk free—this proven, powerful solution. Don't let the chemical pollutions of modern life get the better of you any longer. With E3Live, you can now fight back! Start TODAY by experiencing the life-changing health benefits that **ONLY E3Live** offers! ■

E3LIVE™

Your Brain & Body Energy Infusion!

Arrives Fresh-Frozen and Live for 97% Nutrient Absorption!

NATURE'S PERFECT FOOD!—Liquid Aphanizomenon Flos-Aquae (AFA)

EARTH'S FIRST FOOD CAN DO ALL THIS FOR YOU:

- Normalizes Appetite for Weight Management
- Boosts the Immune System—Increases T-Cell Count
- Improves Emotional Stability—PEA is a Natural Mood Elevator
- Brain Power! Promotes Attention, Better Memory and Concentration
- Rich in Enzymes! Increases Friendly Intestinal Flora
- Supports Cardiovascular Health—Promotes Healthy Cholesterol
- Delays or Reverses Aging, Repairs Cell Damage, Eliminates Toxins
- Promotes a More Sound and Restful Sleep
